A Message to the parents of our current 504 students,

504 Plans for students with disabilities are due for annual reviews every year on the anniversary of the original plan. Due to our loss of time working personally with our students this year, it is difficult to monitor their progress with the accommodations we set up for them. To ensure their continued support from their 504 plan, we are going to renew their plans for another year. Once school starts back we can meet to see if any adjustments to the plans are needed. We just didn't want to let the plans laps.

If you have any questions or concerns, please contact your child's counselor.
